Historic Resources Identification Form

As part of this phase of the project, the City of Alhambra Planning Division needs your help! We would love to hear from you about historic places that are important in your neighborhood. We are particularly interested in the lesser-known places that might have shaped your community. These places may be important for a broad range of reasons, including architecture or landscape design; association with an important person; social, cultural and/or ethnic heritage; residential development, commerce, or industry.

The Historic Preservation Program project will consider all properties dating from 1980 or earlier. All information received from the community will be considered by the project team, and potential resources will be reviewed using professional standards for evaluation.
